

# Nomix Postset

Instant Post Hole Concrete Mix

## Description

**Nomix Postset** is an instant concrete mix that has been formulated to be poured into water for setting a variety of posts.

## Uses

**Nomix Postset** is used to set a variety of posts for example: Mailboxes, swing sets, lamp posts, basketball goals, fence posts, and more.

## Benefits

- Reduces setting time— Both initial (2-3 min.) and final (5-7 min.).
- Provides high early strength so finishing work can begin more quickly and be completed earlier.
- Frees up time to accomplish other projects in a timely fashion.
- Convenient bag.
- Easy to use.

### Packaging:

**40 lb. bags  
160 bags per pallet**

**Non-chargeable pallet**

## Directions

Fill the post hole half full with clean water. Place post in hole and pour **Nomix Postset** at a steady even rate around the post into the water. Bring dry powder up to the surface of the water. One bag will fill an average size hole. Align post to the desired position. No bracing necessary. **Nomix Postset** will harden in approximately 5 minutes. Sprinkle water on top of the **Nomix Postset** powder visible in the hole. Tamp surface to eliminate air cavities.

## Limitations

Test were conducted at 70°F. Colder temperatures will lengthen set times and retard strength gain. Hotter temperatures will accelerate set times and strength gain.
